Painter/Paint Prepper

Description

We are looking for a highly experienced Painter who is capable of applying finishes to a wide variety of substrates and completing both production work and creative projects.

* Hiring for three (3) positions*

Responsibilities

- Supports the application of liquid coatings using HPLV spray equipment and the Matthews line of acrylic polyurethane paints and coatings.
- Responsible for maintaining quality standards in the paint application process.
- Responsible for precise application of various masking materials.
- Inspecting of surfaces to be sprayed to ensure that they are finished to a level that will not contribute to quality problems after the surfaces have been coated.
- Apply various masking materials.
- Understand the fabrication shop drawings so that the proper colors and finishes can be applied.
- Create samples to be used in the approval process.

Qualifications

- Minimum of two years' experience applying liquid coatings in a high-quality environment.
- Ability to interpret shop drawings to the extent required of the job.
- Ability to lift up to 75 pounds.
- Ability to read, understand, communicate, and interpret written and verbal instructions.
- Ability to stand up to 8 hours a day.

Job Benefits

- Medical, dental & vision insurance
- 401(k) with company match
- 1-week minimum paid vacation per year
- 6 company-paid holidays
- Professional & financial growth opportunities
